

# MONEY CAN MAKE OR BREAK YOUR SPIRITUAL LIFE!!!

Written by Master Stephen Co

Most people find money liberating. However, many spiritual practitioners find it crippling. Certain religious conditioning creates subconscious guilt about having an abundance of money. Consequently, many spiritual practitioners often sabotage their own material and financial success. In Pranic Healing<sup>®</sup>, we believe money is simply a valuable tool. It enables us to help solve the world's problems like donating to charities that feed the hungry and assist poverty-stricken and diseased areas. It helps educate our children and provide good living conditions. The proper amount of resources, like money, buys the freedom to have time to meditate and serve humanity. Consider the fact that most of the powerful spiritual organizations have millions of dollars at their disposal to print spiritual books, advertise and hold massive meetings in order to quickly spread their message. Money and money equivalents can be beneficial tools for furthering your spiritual purposes.

GrandMaster Choa Kok Sui, modern founder of Pranic Healing<sup>®</sup> always says that "it is difficult to serve on an empty stomach". That is why he has synthesized the secret of ancient magicians and the skill of modern Asian tycoons into a system called "Kriya\$hakti<sup>®</sup> - The Spiritual Science of Materializing Prosperity!" Enlightened Sages teach us that the Physical World that we see, feel and touch is simply a reflection of what has already transpired in the Inner Worlds. Kriya\$hakti<sup>®</sup> allows us to organize our Inner Worlds so that we can have a more fulfilling and prosperous physical life. We become happier and more peaceful because the size and strength of our upper and lower chakras become balanced. Upper chakras like the *crown* and the *heart* affect our spirituality. Lower chakras like the *basic or root* and *sex center* affect our survival instinct and the ability to make money. Many spiritual practitioners who experience money challenges have significantly big upper chakras and tiny lower chakras, which manifests as a condition called "space out". GrandMaster Choa Kok Sui teaches how to effectively activate and balance the upper and lower chakras making it possible to manifest the goodness in each person.

Kriya\$hakti<sup>®</sup> is not just visualization and affirmations. If these were the only requirements to having material and financial wealth, most everyone would already have everything they want. The art and science of Kriya\$hakti<sup>®</sup> is learning the secret ancient formulas for precipitating thoughts into physical reality. First, you will use energy and willpower to disintegrate obstacles, hindering thought forms and beliefs. Second, you learn and practice ancient magical techniques on creating "genies or *powerful psychic assistants*" who do your work in the Inner Worlds. They create the right energetic conditions for your desires to materialize. The teachings include never before revealed "mudras" (hand positions) and eye positions to make your army of "genies" powerful enough to accomplish the tasks.

Often people think that having higher education and a disciplined work ethic should be sufficient to guarantee a life of financial success. Unfortunately, many are shocked and disappointed to

discover that they have worked hard all their lives only to have to depend on "social insecurity". Many of the CEO's of Fortune 500 companies, including Bill Gates, do not even have a college degree yet seem to have money and opportunities fall in their laps. This demonstrates another important key to materialization, the *Science of Entitlement*. This powerful technique allows you to create the conditions that karmically entitle you to have your wishes fulfilled. Prosperous karma is like the electricity, and the powerful thought or emotional forms you create are like the television unit. One without the other will not produce a picture. In Kriya\$hakti<sup>®</sup>, you will have a precise step-by-step formula to manifest your goals and dreams. With Kriya\$hakti<sup>®</sup>, you can create the life that you really want.
